
Todd L. Balazs

Digital Integration Officer Naval Air Systems Command

Mr. Todd L. Balazs currently serves as the Naval Air Systems Command (NAVAIR) Digital Integration Officer responsible for the digital transformation across a 32,000 person organization by developing the digital infrastructure and foundational elements, to create an agile eco-system of accessible data tools, analytics and skilled workforce across the organization.

Mr. Balazs served as the Deputy Assistant Commander for Logistics and Industrial Operations for NAVAIR from June 2013 to June 2017, overseeing a workforce of approximately 11,000 military, civilian and contractor personnel responsible for the life cycle logistic support of all Naval Aviation programs with an operating annual budget of approximately \$4B.

Mr. Balazs served as the Deputy Program Executive Officer for Assault and Special Mission Programs from March 2008 to May 2013, with an annual budget of approximately \$12B and workforce of 5,000, where he was responsible for the development and fleet introduction of the Marine Corps heavy lift helicopter program, CH-53K, the acquisition of the replacement Presidential Executive helicopter and sustainment of the current executive transport VH-3D and VH-60's, production of the Joint V-22 tilt-rotor aircraft, the Marine Corps Light Attack and Utility helicopters, AH-1Z and UH-1Y respectively, production of the H-60R/S platforms, and fleet introduction of the P-8 Poseidon aircraft along with sustaining numerous fielded helicopters.

Mr. Balazs has over 30 years of civilian service with the Department of the Navy and was appointed into the Senior Executive Service in March 2008.

Mr. Balazs served as the deputy program manager for the V-22 joint tilt-rotor aircraft program from May 2007 to March 2008 where he was responsible for all programmatic aspects of the program to include the first deployment of the aircraft in Iraq to support the global war on terrorism and award of the \$10.4B Multi-Year Contract for 167 aircraft.

Mr. Balazs served as the deputy for program assessment in the Program Executive Office for Tactical Aircraft programs from May 2006 to May 2007. In this role he provided programmatic and acquisition oversight for the F/A-18 Strike Fighter aircraft, EA-18G Advanced Electronic Attack aircraft, E-2C and E-2D Airborne Battle Management Command and Control aircraft, the C-2 Transport and EA-6B Electronic Attack aircraft, along with tactical aircraft electronic warfare systems and the development of the Joint Precision and Landing System program.

Mr. Balazs served as the deputy program manager for the E-2 Hawkeye and C-2 Greyhound aircraft programs from July 2001 to May 2006 where he led the E-2D Advance Hawkeye aircraft program from the concept phase through development. Mr. Balazs served as the program manager for the E-2 Hawkeye and C-2 Greyhound aircraft programs from September 2004 to February 2005.

Mr. Balazs served as the deputy program manager for EA-6B Prowler aircraft program from May 1997 to July 2001 where he led the EA-6B improved capability development program to provide a selective reactive receiver capability in the aircraft and served as a basis for the EA-18G aircraft.

Mr. Balazs began his career at NAVAIR serving in the Engineering Science Development Program with his first assignment in the avionics support equipment division of NAVAIR. He later served in the logistics department leading the activities supporting the first deployment of the F-14D Tomcat aircraft. He was the senior logistician on the F/A-18E/F Super Hornet program responsible for the development of the logistic support system supporting initial fleet introduction. Mr. Balazs has served in various staff positions throughout his career. He served as an action officer in the Office of the Deputy Assistant Secretary of the Navy for Research, Development, Test and Evaluation, as the senior acquisition representative in the Program Executive Officer for Tactical Aircraft programs and as the operations officer in the F/A-18 program office.

Mr. Balazs earned a bachelor's of science degree in mechanical engineering from Virginia Polytechnic Institute and State University in 1983 and a master's in engineering management from Catholic University in 1991. He holds two management certificates from the University of North Carolina and completed the Defense Acquisition University's Program Managers Course in 1997.

His awards include two Meritorious Civilian Service Awards, two Superior Civilian Service Awards and the Presidential Rank Award for Meritorious Executive.
