
R. David Curfman, P.E.

Assistant Commander for Public Works Naval Facilities Engineering Command

David Curfman entered the Senior Executive Service in October 2014. He currently serves as the Naval Facilities Engineering Command's (NAVFAC) Assistant Commander and Director for Public Works where he is responsible for Utilities Operations and Management, Facilities Management and Sustainment, Facility Services and Base Operating Support Contracts, Energy Resiliency and Management, and Transportation Management. Public Works provides over \$5 Billion in services annually to the worldwide Navy and Shore establishment through 71 Public Works Departments, supporting 88,000 facilities, 45,000 transportation assets, by over 11,000 civilians, military, and contractors.

Mr. Curfman received his Bachelor of Science in Civil Engineering, with a concentration in Structures, from Virginia Tech in 1983. He received his Master's degree in Civil Engineering, with a concentration in Coastal Structures, from Old Dominion University in 1993. He has also attended executive training at the Wharton School, University of Pennsylvania. In 1981, he began his federal career at Public Works Center Norfolk, worked 6 years with a private consulting engineering firm, and then returned to work for NAVFAC in 1989. Over the last 29 years of Federal Service, he has held numerous leadership positions including NAVFAC Special Assistant for Waterfront and Harbors, Director of NAVFAC Engineering Innovation and Criteria Office, Director of Environmental Programs for NAVFAC Atlantic, and Director of Public Works for NAVFAC Atlantic. Mr. Curfman has also worked in the Auto Parts, Construction, and FSC industries.

In 2009, Mr. Curfman completed the Federal Executive Institute Program, "Leadership for a Democratic Society". He is a registered professional engineer in the Commonwealth of Virginia and a member of the Acquisition Professional Community. He served as the NAVFAC Command Standardization Executive and, in 2003, received a Navy Outstanding Achievement Award for Defense Standardization. He also served as chair of the Whole Building Design Guide Advisory Board and was awarded The National Institute of Building Sciences Member Award in 2004. He has also received several environmental awards from CNO and ASN for Environmental Planning and Environmental Restoration. Mr. Curfman received the Navy's

Superior Civil Service Award in 2011, the Navy's Meritorious Civilian Service Award in 2007, and was selected as NAVFAC Engineer of the Year in 1995. In 1998, he was the prime contractor on his personal residence.
