
Scott St. Pierre

Enterprise Information Technology Officer Naval Sea Systems Command

Mr. Scott St. Pierre is a graduate of the College of the Holy Cross in Worcester, Massachusetts, where he received a B.A in Russian Language and Literature in 1986. Upon graduation, he received his commission in the Navy through the Reserve Officer Training Corps.

From 1986 to 1997, Mr. St. Pierre served in three ships on the West Coast, including *USS FLETCHER (DD 992)*, *USS ANTIETAM (CG 54)*, and *USS PRINCETON (CG 59)*, as well as on the staff of the Commander Naval Surface Force, Pacific Fleet, where he was the Future Plans Officer. During his tours as Combat Information Center Officer in ANTIETAM and Operations Officer in PRINCETON, each of these commands was awarded the Spokane Trophy as the top ship in the U.S. Pacific Fleet.

After leaving the Navy, Mr. St. Pierre worked as a program manager for a defense contractor which supported the Chief of Naval Operations Staff and the Program Executive Office, Theater Surface Combatants providing subject matter expertise in Battle Group AAW, SUW, ASW, ELW, BMC4I, Link Interoperability, and CID. He was the Assistant Program Manager of a 70 person team that provided support across Navy and Joint commands, including the Marine Corps, Joint Theater Air and Missile Defense Organization, and the Ballistic Missile Defense Organization. In this role, he supported requirements generation, systems integration and engineering, and acquisition of new systems.

Mr. St. Pierre was a self-employed defense contractor 2001-2009, providing technical and programmatic support to the PEO Integrated Warfare Systems (IWS), System Engineering Directorate, and the CEC Program Office. His primary duties included systems engineering, acquisition policy compliance, and information technology and information assurance guidance and process development. He was instrumental in leading the Force Systems Engineering Council, tasked to resolve CEC OPEVAL issues, and in leading the PEO IWS and Naval Sea Systems Command (NAVSEA) Platform IT working groups.

In January, 2010, Mr. St. Pierre joined the Department of the Navy as the PEO IWS Enterprise System Engineer, and has led cross-program efforts in Threat Assessment, Modeling and Simulation, System Engineering, and Information Assurance in PEO IWS and across NAVSEA. He led NAVSEA efforts to improve Information Assurance implementation in surface ship and submarine networks and systems, which resulted in the Navy's Platform IT Policy and NAVSEA's Implementation of Afloat IA Governance and Guidance. From April to November,

2014, he served as the PAPM for Combat System Integration on INDEPENDENCE variant Littoral Combat Ships and led efforts to correct numerous performance and integration issues on the Baseline 5 combat systems and complete development of Baseline 6 combat systems.

In December, 2014, Mr. St. Pierre was selected to a Senior Level (SL) Executive position as the NAVSEA Enterprise Information Technology Officer, which includes the duties of the Command Information Officer.

Mr. St. Pierre is a certified Department of Defense Acquisition Professional.
