Enterprise Framework

• Charter in place
• Non-hierarchical
• Does not drive C2 with stakeholders:
  – NAVAIR
    • AIR 4.0 / AIR 6.0 / COMFRC (Lvl III)
  – DCA
  – CNAL
  – OPNAV N98
  – NAVSUP WSS
  – DLA/Aviation
• Cooperative partnership focused on providing the right readiness at the right time
  – Highly collaborative (dash line)
  – Effective; less efficient
