MEMORANDUM FOR DISTRIBUTION

SUBJECT: Data Call for Annual Congressional Report on Pilot Program to Acquire Military-Purpose Non-Developmental Items Using Streamlined Procedures

The attached Director of Defense Procurement and Acquisition Policy (DPAP) memorandum (same subject, dated November 28, 2012) announces a data call to comply with Section 866 of the Fiscal Year 2011National Defense Authorization Act. That section of the Act requires an annual report to Congress for each contract entered into under the pilot program to acquire Military purpose non-developmental items using streamlined procedures at the end of each fiscal year in which the program was in effect.

Currently, Federal Procurement Data System-Next Generation (FPDS-NG) does not capture the necessary data; therefore, in order to comply with the reporting requirement for FY11 and FY12, submit required data using the format in the DPAP memorandum, attached hereto.

This data calls requires segregation of the reporting periods as follows (and and shown on the attached):

- FY11 - June 29, 2011 through September 30, 2011
- FY12 - October 1, 2011 through September 30, 2012

Responses shall be submitted to DASN(AP) for consolidation by December 14, 2012. Negative responses **are** required.

My point of contact for this data call is Denise Randolph. She can be reached on (703) 614-9767 or via Denise.Randolph@navy.mil .

DIRECTORS OF THE DOD FIELD ACTIVITIES

SUBJECT: Data Call for Annual Congressional Report on Pilot Program to Acquire Military-Purpose Non-Developmental Items Using Streamlined Procedures

The Secretary of Defense is required under section 866 of the National Defense Authorization Act for Fiscal Year 2011 to report to the congressional defense committees on the pilot program to acquire Military purpose non-developmental items using streamlined procedures at the end of the fiscal year in which the program was in effect. The authority to carry out this pilot program is in effect for 5 years after P.L. 111-383 was enacted on January 7, 2011.

On June 29, 2011, an interim rule implementing section 866 became effective immediately upon its publication in the Federal Register (76 FR 38049). The rule provided guidance to the contracting community to ensure appropriate oversight of the pilot program for acquisition of military-purpose nondevelopmental items. The rule was codified in the DFARS at subpart 212.71 and 252.212-7002, and serves as a guidepost to the federal acquisition community when awarding contracts under this pilot program. A final DFARS rule (77 FR 2653), without change, became effective on January 19, 2012.

The Act also requires an annual report to Congress for each contract entered into under the pilot program in the preceding fiscal year including: (A) the contractor; (B) the item or items to be acquired; (C) the military purpose to be served by such item or items; (D) the amount of the contract; and (E) the actions taken by the Department of Defense to ensure that the price paid for such item or items is fair and reasonable.

Contract action reports currently submitted to the Federal Procurement Data System - Next Generation (FPDS-NG) do not capture contracts awarded under this pilot authority. Therefore, in order to comply with the congressional reporting requirements for Fiscal Years (FY) 2011 and 2012, the Defense Components will submit the required data using the attached formatted spreadsheet, which contains additional data fields to facilitate reporting. Please note

that for FY 2011, Defense Components should report from June 29, 2011 (effective DFARS change) through September 30, 2011, as well as for the entire FY 2012. The submittal shall be signed by the Defense Component's Senior Procurement Executive or Senior Contracting Official, to the attention of the Deputy Director, Contract Policy and International Contracting, no later than December 21, 2012. Negative replies are required.

My point of contact for this memorandum is Ms. Lyndi Balven, who can be reached at 703-693-0197 or Lyndi.Balven@osd.mil.
