21ST CENTURY SAILOR AND MARINE POLICY AREAS

   a. Suicide prevention will remain a priority for leaders within the department. We will seek to reduce suicides by providing Sailors, Marines and their families with the support network, health care, and skills needed to overcome adversity; and by training leaders to recognize when Sailors and Marines need help.

   b. The 21st Century Sailor or Marine will not tolerate any form of sexual assault. The DON will continue to develop and employ programs focused on the prevention of sexual assault by or against members of our force, protection and counseling for victims, and the responsibility of all Sailors and Marines to take action to deter or disrupt high-risk situations.

      (1) Commanders have the responsibility to establish a command climate that discourages sexual assault by promoting a climate of respect and taking swift, appropriate action when an incident occurs.

      (2) All allegations will be thoroughly investigated by the appropriate military criminal investigative organization to ensure swift, sensitive and fair response to sexual assault allegations, and when appropriate, litigation of sexual assault cases.

   c. Command leadership remains vital in providing Sailors and Marines the tools and resources to make responsible choices regarding alcohol and maintain a command climate that does not tolerate the use of illegal substances.

      (1) The DON will continue to discourage the irresponsible use of alcohol using education, enforcement and prevention tools, to include random screening for alcohol.
