
John Adams

Director, Functional Requirements Lead Office of the Assistant Secretary of the Navy (Financial Management and Comptroller)

Mr. Adams is currently serving as the Director, Functional Requirements, Navy Enterprise Resource Planning (ERP). His responsibilities include the delivery and resourcing of financial management functional requirements to consolidate and transform financial management systems and other feeder systems to improve the internal controls of the general ledger to ensure the Navy's financial statements are auditable. He serves as the functional lead, providing advice and guidance, on financial management systems consolidation and transformation to senior members of the Navy staff, and as focal point for liaison with OUSD(C) and DCMO on financial system consolidation matters.

Prior to his current assignment, Mr. Adams was the Acting Deputy Director for the Financial Services Center at the Department of Veterans Affairs. In this role he provided leadership and management of Accounting, Data Analytics, Travel, and Charge Card Financial Services for the Department. At the VA he also held assignments as a Senior Policy Advisor to the Interim Assistant Secretary for Management and Interim Chief Financial Officer; Director, Business Process Reengineering for the VA's Financial Management Business Transformation (FMBT) initiative; and Director, Corporate Travel and Charge Card Service before moving into a Senior Executive position as the Acting Deputy Director for the Financial Services Center.

Mr. Adams is a Marine Corps veteran with 30 years expeditionary financial management experience. At the Department level he served as the senior finance liaison for the Defense Integrated Military Human Resources System (DIMHRS) effort at the Joint Program Management Office, Space and Naval War Systems New Orleans, Louisiana; the Deputy Director, Marine Corps Disbursing Operations and System Section (MCDOSS), Kansas City, Missouri; and Head, Finance policy and procedures, Programs & Resources, Headquarters Marine Corps before retiring from Headquarters Marine Corps in 2014.

Upon leaving the Service he led a commercial Line of Business as a Program Manager for ECS Federal, LLC. In that role he led efforts supporting the Navy's Military Pay modernization program, including strategic planning, change management, and business process re-engineering for pay processes, business architecture development, and functional data management. He also provided strategic support for U.S. Navy portfolio management of all Manpower, Personnel, Training, and Education (MPT&E) systems, to include the tracking and completion of architecture product annual, milestone, and systems BPR reviews for DoN program and system funding.

Mr. Adams holds a Bachelor's of Science in Business Management at the University of Maryland. He is a Certified Defense Financial Manager (CDFM), Project Management Professional (PMP), and holds an Information Technology Infrastructure Library (ITIL) foundations certification.
