

William Carty

Deputy Commander, Corporate Operations (SEA 10) Naval Sea Systems Command

Mr. Bill Carty is the Deputy Commander for Corporate Operations at Naval Sea Systems Command and is responsible for command-wide corporate operations support and total force management.

He was appointed to the Senior Executive Service (SES) in July 2012 and entered civil service in 1994.

Mr. Carty's first SES assignment was as the Assistant Commander, Chief Management Officer at the Naval Facilities Engineering Command and was responsible for total force planning, management and business operations.

Mr. Carty was the Director of Transformation / Efficiencies in the office of the Deputy Under Secretary of the Navy / Deputy Chief Management Officer (DUSN/DCMO). He led efforts to identify and quantify departmental efficiencies and transformative initiatives across the US Navy and US Marine Corps.

Mr. Carty was the Executive Director for Navy Region Europe, Africa, Southwest Asia located in Naples, Italy. As Executive Director, Mr. Carty served as the principal deputy to the Commander and was the command's senior civilian. Prior to being selected as Executive Director, he was the Command's Director for Strategy and Future Requirements (N5).

Prior to moving to Naples, Italy, Mr. Carty was based in Washington, DC where he worked at the Commander, Navy Installations Command (CNIC) in the Total Force Manpower Office (N1) and managed the competitive sourcing program. He was involved in the creation and implementation of the new echelon II command in the beginning of Fiscal Year 2004.

Prior to moving to CNIC, Mr. Carty worked at the Military Sealift Command (MSC) headquarters. While at MSC, Mr. Carty worked in various roles, both at the headquarters and in the field, supporting a diverse spectrum of maritime operations for the US Navy, Department of Defense, and other government agencies.

Mr. Carty is a graduate of the US Merchant Marine Academy with a Bachelor of Science degree in Marine Engineering Systems, and of the George Washington University with a Master of Science degree in Engineering Management. He has received two Department of the Navy Superior Civilian Service Awards.
