
Dr. Angela D. Lewis

**Technical Director
Naval Surface Warfare Center, Crane Division
Naval Sea Systems Command**

Dr. Lewis assumed the responsibilities of Division Technical Director for Naval Surface Warfare Center, Crane Division (NSWC Crane) in February 2021 and was appointed a member of the Senior Executive Service. In this role, Dr. Lewis serves as the senior civilian at the command, which consists of more than 3,800 military and government civilians providing the Navy with acquisition engineering, in-service engineering and technical support for sensors, electronics, electronic warfare and special warfare weapons.

Dr. Lewis brings exceptional leadership and more than 30 years of experience to Crane.

In October 2009, Dr. Lewis was named the Deputy Department Director for the Global Deterrence and Defense Department. In this capacity, she provided operational oversight for the Strategic Missions workload, developed and maintained strong customer relationships, and facilitated strategic and business planning efforts with the Department Director and Division leadership team. The department is responsible for development, acquisition, and sustainment of electronic systems and components in support of defense strategic missions and customers.

In September 2012, Dr. Lewis was selected as the command's Chief of Staff. In this position she was recognized as a member of Crane's Executive Leadership Team, and she served as an advisor to the Commanding Officer and Technical Director, and their staff. Throughout her career, she has maintained an active role in working on behalf of the Crane workforce. She has been instrumental to the establishment of Crane Division University, and to the facilitation of the organization's hallmark leadership development courses.

In January 2016, Dr. Lewis was selected as the Corporate Operations Department Director and Business Director where she provided executive level leadership for the command's strategic plan, senior level customer outreach, program office interface, and corporate business capabilities. She was responsible for an integrated approach to investment and resource planning to ensure strong technical health and relevant

capabilities are in place for execution of Electronic Warfare, Strategic Systems and Expeditionary Warfare missions.

Dr. Lewis holds a Bachelor of Science and a Master's Degree in Business Administration, both from Ball State University and a Ph.D. in Management from Sullivan University. She also received a Public Management Certification from Indiana University.

She was selected by the Indiana Commission for Women as a Torchbearer in 2015 for significant achievements as a woman in government and for her contributions to her employer, local community, and state. She is a member of the Southern Indiana Section of the American Society of Naval Engineers, a member of the Crane Chapter Federal Manager's Association, and a lifetime member and past president of the Hoosier Hills Chapter of Federally Employed Women. She recently served eight years as President of the Board of Directors for the Boys and Girls Club of Lawrence County.
