## **E. Jamie Thompson**

### **Assistant Deputy Commandant (Installations & Logistics for Contracts) Headquarters Marine Corps**

Mr. Jamie Thompson is the Assistant Deputy Commandant, Installations and Logistics for Contracts (ADC, I&L (Contracts)). He is a senior contracting officer responsible for award, administration and oversight of contracts that support the Marine Corps Operating Forces, and supporting establishment supply and service requirements. Mr. Thompson is the principal civilian advisor to the Deputy Commandant for Installation and Logistics for acquisition and procurement matters. Mr. Thompson is responsible for leading the Marine Corps Field Contracting Service which comprises greater than 20 procurement offices, and 400 procurement professionals.

Prior to joining the Headquarters Marine Corps, Mr. Thompson was the senior contracting officer for Program Executive Officer, Land Systems Marine Corps (PEO LS) where he led contracting activities for the Marine Corps complex weapon systems such as ground tactical vehicles, amphibious tactical vehicles, radar systems, and command and control systems. In this role, he led and influenced the contracting and procurement decisions for greater than 20 acquisition programs, which included six (6) Acquisition Category (ACAT) I programs. The value of PEO LS programs under his contracting leadership exceeded \$7 Billion.

Prior to PEO LS, Mr. Thompson worked in the private sector, where he specialized in acquisition process improvement, supply chain improvement, strategic sourcing, project management, and execution to exceed plan. He consulted with federal agencies and led a \$200 Million service enterprise. Mr. Thompson was responsible for assisting clients with improving their supply chains to achieve organizational fulfillment goals, operational excellence, and competitive advantage through increased workforce efficiency, reduced procurement lead times, and reduced costs. Mr. Thompson's clients included Department of Energy, Department of Army, Defense Logistics Agency, Department of Justice, Department of State and numerous commercial clients.

Before joining the private sector, Mr. Thompson worked for the Naval Sea Systems Command. He was responsible for executing Navy service and weapon system procurements. Duties involved acquisition planning, source selection, cost analysis and negotiation. Procurements under Mr. Thompson's span of responsibility included radar

development, missile system development and production, sonar development and production, and shipbuilding.

Mr. Thompson graduated with a Bachelor of Science Degree in Transportation/Logistics from the University of Maryland and with a Masters of Business Administration from Loyola University of Maryland. Mr. Thompson's awards include: Vice Presidential Hammer Award for Reinventing Government; Department of the Navy Acquisition Professional of the Year for FY 2014; Naval Surface Weapon Center (NSWC) Carderock Division Command Outstanding Leadership Award FY 2016; Marine Corps Meritorious Civilian Service Award Medal; Navy Meritorious Civilian Service Award Medal; and Department of Homeland Security Small Business Advocate of the Year.
