PROCEDURES

1. Program Overview

   a. The DON will be better prepared to meet future challenges if Navy and Marine Corps personnel are familiar with industry innovation and transformation to assist DON senior leaders. This program is intended to build a cadre of personnel better poised to understand not only the naval profession, but also the nature of strategic problems facing the DON and solutions garnered from high-performing organizations outside DON. Specifically, the SNTWI Program will develop military leaders who:

      (1) Appreciate how long range planning, organizational and management innovation, and emerging technologies may influence the operation and culture of the DON in the future;

      (2) Are able to conceive, design, and implement operational and organizational modernization options; and

      (3) Motivate and lead the DON toward innovative responses to technological change, and challenge others to address these matters, thereby improving operational and organizational processes throughout the DON.

   b. SNTWI Programs will not duplicate existing training, education, or fellowship programs in the DON and will not be used to produce acquisition specialists or technologists. SNTWI Programs will be coordinated with other innovation programs to ensure programs are complementary and mutually supporting, when appropriate.

2. Sponsoring Organizations. SNTWI Programs will select sponsoring organizations that are leading in business affairs and have reputations for insightful long range planning, organizational innovation, and adaptation. The selection of sponsoring organizations will place special emphasis on organizations that:

   a. Leverage strategies such as successful management and
exploitation of emerging technologies, and demonstrate flexibility in reshaping their organizational structures and methods of operation to remain competitive; and

b. Are characterized by a strong strategic planning capability, innovation, and organizational agility in response to economic, social, and technological trends in American society and business.

3. SNTWI Duration. Each SNTWI will normally be 11 months, but no longer than 12 months. On a case-by-case basis, the CNP or DC, M&RA may authorize exceptions for SNTWI Programs that extend beyond 12 months.

4. Personnel Requirements

a. The SNTWI Program is voluntary and pertains to officers and enlisted personnel serving in the Regular Component or FTS/AR category of the Reserve Components of the Navy and Marine Corps, with a minimum of 5 years of service. Officers must be paygrade O-3 or above. Enlisted personnel must be paygrade E-6 or above. All Warrant Officers, regardless of paygrade, are eligible to participate. SNTWI participants must have distinguished themselves by their performance in their fields and have high potential for future leadership positions.

b. An Officer participating in the program must execute a written agreement to remain on active duty following the SNTWI for three months for each month spent in the SNTWI Program. Enlisted personnel must re-enlist or extend their current enlistments such that, following the SNTWI, they will have at least three months remaining on active duty for each month spent in the SNTWI Program. This commitment is in addition to, and will be served concurrently with, any and all remaining or future active duty obligations. All applicants must have time to complete obligated service prior to 20-year retirement eligibility.

c. Prior to participation in the SNTWI Program, each participant will enter into a Program Agreement with the Service and SNTWI sponsoring organization that constitutes a written record of obligations and responsibilities. This Program Agreement will acknowledge governing policies, length of tour, nature of the training assignment, Active Duty status, non-
disclosure requirements, sponsoring organization’s requirements to support the participant, and address whether the participant will communicate with the United States Government on behalf of the sponsoring organization. As stated in paragraph 4.d. of enclosure (1), agreements will contain an agreed-upon provision that, in consideration for the participation and contributions of the SNTWI participant, the company agrees to release, indemnify, and hold harmless the Service and/or its officers, agents, or employees from any and all claims, demands, suits, etc. which may be brought against the Service as a result of participation in the SNTWI Program. Program Agreements will follow the general format of enclosure (3) and be reviewed by DON’s General Counsel.

5. **Training.** Service members selected for the SNTWI Program will receive training and orientation prior to reporting to their sponsoring organizations. This training will:

   a. Prepare the member to operate in and contribute to a civilian organization; and

   b. Include a DON Ethics Counselor-led brief regarding restrictions on standards of conduct issues likely to arise in conjunction with participation in the member’s SNTWI. This training will be conducted by a designated Ethics Counselor and will include instructing the SNTWI participant in responsibilities under references (d) through (h). This training is mandatory for participation in the SNTWI program.

6. **Security Clearances.** Security clearances may be required for participation in the SNTWI process. SNTWI participants may not participate in discussions that require access to classified information without the proper security clearance. SNTWI participants will coordinate with the SNTWI program director before participating in any discussions or activities that require access to classified information, and will resolve any security clearance eligibility and access issues prior to accessing classified information that exceed their security clearance or may otherwise conflict with DON security policies.

7. **Travel.** SNTWI participants are authorized to participate in company-funded training opportunities. All travel for SNTWI participants required by the assigned company must be funded by the assigned company. SNTWI will not fund travel with the
exception of SNTWI Orientation and mid-tour. Funding for SNTWI participant engagement opportunities to discuss the program post tour will be considered on a case-by-case basis. Following any travel, SNTWI participants must submit a trip report to the SNTWI program director.

8. Feedback of SNTWI Experience. Observations and feedback are essential to the DON achieving maximum benefit from this program.

   a. SNTWI participants will periodically submit written reports documenting their experiences and observations. These reports will be maintained in the SNTWI Information Sharing Environment and shared with other DON organizations.

   b. At the conclusion of a SNTWI, the participant will brief appropriate Service leaders. Some participants will be selected to brief DON leadership, which may include the Secretary of the Navy and Under Secretary of the Navy.

9. Follow-on Utilization. Upon completion of SNTWI, the skills developed in the program will be annotated in the participant’s personnel record. Personnel will normally be assigned to follow-on utilization tours immediately following SNTWI. Those who are not immediately assigned to utilization tours will be tracked for assignments at a later time.
