Attachments: [AFFF Inventory -- UNINSTALLED Manufactures Container December2016 Hawaii.xlsx](#)

Hi (b) (6)

Our PFOS should be 3,175 (uninstalled gallons). From the attached tasker spreadsheet, it looks like the calculation missed 425 gallons of PFOS stored at HazMart (line 279).

Subject: AFFF PFOS Survey - 13022017

Chiefs, and the AFFF survey said.. reference attached AFFF PFOS Survey - 13022017 document.

We realize many of you have replaced AFFF on your own. However, there is still additional work required, before we can replace all the (PFOS). Please confirm the attached list is correct your Region and review the comments right column.

NW (Manchester) and SE (Hecksher) fuel farms, please see NFPA Std 11, (chapter 5) and the Fire Engineering article on Storage Tank Fires and determine the amount of AFFF required based on the local planning considerations.

Questions, please give me a call.
