(b) (6)  
Good news from NAVSEA--PMRF's AFFF is compliant, and there's no need to report/dispose.

Thanks for checking (b) (6)

V/r,

(b) (6)

All manufacturing dates of this product, Phoschek 3%, meet the PFOA/PFOS limits of MIL-PRF-24385F W/ Amd 2.

Accordingly, they can keep and use this product.

v/r,

(b) (6)

(b) (6),  
Could you take a look at the attached info/pics on some AFFF at PMRF Barking Sands? It's the non-highlighted entry on the spreadsheet. I'm guessing we'll get a lot of these, but they're a bit rattled at the potential need to dispose of newly acquired inventory after already disposing and repurchasing following the last evolution.

Let me know if their product is compliant.

Thanks!

V/r,

(b) (6)

(b) (6)  
Please see PMRF's email below. The PMRF Federal Fire Department disposed of a bunch of AFFF from our first go-around and ordered the new replacements. Now the new replacement stock 4210-01-139-4972 is apparently also bad as the DOM is October 2016. FED Fire is not too happy with this and they are apparently investigating?

Please advise...
