ALCON - see authorization and JON below. Each installation will need to submit a Purchase Request. Call me if you have any questions.

Thanks,

(b) (6)

(b) (6)

I just spoke with (b) (6) and he is aware of the issue, have each installation ship their own scanners out for tracking purposes.

Have them process the items and get them out as quickly as possible before the cards are reduced.

Thanks,

(b) (6)

(b) (6)

We have been directed by the attached to send back the handheld scanners by 9 August. As you can see by the date of the direction it JUST came out. In order to track these we will need to use FEDEX like we did with the last batch. With that being said I don't know if all the cardholders will be able to get them done by COB today when the cards are turned off.

Please advise what needs to happen so we can meet the requirement that CNIC has sent out.

ALCON,

Good morning ! As directed, please begin the process of collecting up your Hand Held Scanners for shipping to South Carolina. Once the plan is finalized on how we will ship them back (by installation or consolidating them to save money)...MORE TO FOLLOW.

(b) (6)

Information on the HH is provided. Please begin the process of getting these shipped back to Charleston to have them reprogrammed. The direction from CNIC is to send all HH that were not reprogrammed already.

V/r, (b) (6)

All.

TV5 is down locally, so I will push out a formal Tasker next week. This basically mirrors the last tasker (100 HH Scanners software change out) and requires the remaining 770 HH Scanners to be shipped.

Expectation is that conversion of HH Scanners and infrastructure at ECPs are back up and operational on or as close to 1 October 2013 as possible. However, N6 needs all the scanners soonest to be able to respond more efficiently.

Monday is furlough day at HQ, but may some regions on a different furlough day to get started. Thanks!
