A contract issued by FA8771 is administered by S2606A but inspected by S2401A.

The QAR at S2401A finds a problem and initiates a CDR.

They could assign the CDR to the PCO, or to the DCMA office of administration.

In this demonstration, they are doing the latter.

An initiator at S2401A creates a CDR and assigns it to another DCMA office (S2606A).

The reviewer approves the CDR which causes it to be sent to S2606A.

Above, an ACO assignee at S2606A opens the CDR and will click the Reassign Button.

After clicking the Reassign Button, the ACO assignee is brought to the above screen. Notice that it shows the CDR is still assigned to the ACO office.

The ACO assignee clicks to change that to the PCO office (FA8771) -- see below -- then clicks OK.

◀◀ Previous   ⓘ Help

A PCO assignee at FA8771 searches for and finds the CDR.

In this demonstration, they open it and choose to resolve it. That "resolves" [sic] it back to the initiator.
