MEMORANDUM FOR DISTRIBUTION

SUBJECT: Theater Business Clearance/Contract Administration Delegation (TBC/CAD) Updates

Contracts subject to TBC are those valued at $30,000 or more for Iraq or Afghanistan or valued at $1,000,000 or more, awarded to non-Host Nation firms, for Kuwait or Pakistan that require delivery of material to Afghanistan, Iraq, Kuwait or Pakistan under FOB Destination terms using commercial transportation outside the Defense Transportation System; service or construction contracts with place of performance in Afghanistan, Iraq, Kuwait or Pakistan; or contracts that authorize contractor personnel, including subcontractors at all levels, to carry weapons in Afghanistan, Iraq, Kuwait or Pakistan.

The attached Director, Defense Procurement and Acquisition Policy (DPAP), memorandum updates TBC/CAD to require that all Continental United States awarded contracts to be performed in Afghanistan, Iraq, Kuwait or Pakistan employ the DoD Contracting Officer’s Representative Tracking (CORT) Tool and to require electronic submission of payment requests by foreign vendors for work performed outside the United States.

Contracting personnel are reminded that, in accordance with Defense Federal Acquisition Regulation Supplement Procedures, Guidance and Information 204.201, contracts are to be posted to Electronic Document Access (EDA) in both PDF and data formats.

Please share this information and emphasize the importance of complying with TBC/CAD procedures. My point of contact is Bob Johnson at 703-693-2936 or robert.f.johnson@navy.mil.

(f) Deployment of the Department of Defense (DoD) Contracting Officer Representative Tracking Tool (CORT Tool), Mar 21, 2011  
(g) Class Deviation – Removal of Exception to Wide Area Workflow (WAWF) for Foreign Vendors, May 6, 2011  

In an effort to enable theater visibility and battle space awareness articulated by references (d) and (e), all Continental United States (CONUS) awarded contracts to be performed in theater will use the DoD Contracting Officer Representative Tracking Tool (CORT Tool) in accordance with (IAW) reference (f) and shall also be incorporated into the TBC/CAD Checklist for compliance tracking, prior to the contract award. 

TBC/CAD is also modified to include the requirements invoked by the reference (g) Class Deviation, which removes the exception at DFARS 232.7002(a)(2) for all contracts awarded to foreign vendors for work performed outside the United States. Receipt and acceptance must be accomplished within WAWF for all vendors registered in Central Contractor Registry (CCR), unless another exception applies (e.g., contracts awarded by deployed
contracting officers in the course of military operations). Except as provided in DFARS 232.7002(a)(1) or (a)(3) through (7), the following Defense Federal Acquisition Regulation Supplement (DFARS) Clause is required in all service and supply contracts issued for in theater support: 252.232-7003 Electronic Submission of Payment Request and Receiving Reports (MAR 2008). This clause will be added to the TBC/CAD Checklist and will be cause for rejection of TBC if not appropriately incorporated into the pending contract.

Contracting personnel are reminded that all contracts are to be posted to Electronic Document Access (EDA) in both Portable Document Format and data IAW DFARS Procedures, Guidance, and Information (PGI) 204.201. A benefit of posting to EDA was realized with the deployment of WAWF release 5.1 in July 2011, which greatly expanded the use of EDA to pre-populate all the required contract data in WAWF thus reducing workload and improving accuracy. Defense Procurement and Acquisition Policy (DPAP) uses the EDA scorecard to track all contracts posted to EDA and Federal Procurement Data System – Next Generation (FPDS-NG), ensuring timely and accurate reporting of contracts. The use of the scorecard allows DPAP to determine contracts issued, but not posted in EDA thus identifying those not taking full advantage of the new capabilities.

TBC continues to be of operational importance, as it helps create a common operating picture of contracted support in theater; ensures solicitations and contracts contain appropriate local clauses and provisions; and assures contractor personnel life support requirements are addressed and coordinated prior to their arrival in theater. The associated CAD process ensures coordination of contract administration support in theater prior to contract award.

As reference (c) states, “Contracts subject to TBC are those: (1) valued at >$30K for Iraq or Afghanistan or valued at >$1M, awarded to non-Host Nation firms for Kuwait or Pakistan that require delivery of material to Iraq, Afghanistan, Kuwait, or Pakistan, under FOB Destination terms using commercial transportation outside the Defense Transportation System, (2) service or construction contracts with place of performance in Iraq, Afghanistan, Kuwait, or Pakistan, or (3) that authorize contractor personnel, including subcontractors at all tiers, to carry weapons in Iraq, Afghanistan, Kuwait, or Pakistan, for both existing and newly awarded contracts, regardless of contract end date.”

All other requirements in references (a), (b) and (c) remain in effect. My POC for all TBC overarching policy is Mr. Bill Reich, 703-699-3726, William.Reich@osd.mil. My POC for WAWF is Mr Dave Guinasso, 703-588-0754, David.Guinasso@osd.mil. My POC for EDA is Bruce Propert, 703-588-0830, Bruce.Propert@osd.mil. My POC for CORT Tool is Mae Bartley, 703-588-0832, Mae.Bartley@osd.mil. The Defense Finance and Accounting Service POC is David Wills, 571-372-7152, David.Wills@dfas.mil.

Richard Gimman
Director, Defense Procurement and Acquisition Policy
